Elana Redelinghuys
CEO of Cullinan Guided Journeys

Our Guided Journeys are curated to the highest possible standards with attention to detail in every regard, designed to surprise and delight our guests whilst honouring Africa's rich heritage and the inspiring talent of its people.

Our small group, set departure date shared **Classic Guided Journeys**, strike a balance between quality and affordability, without compromising on quality.

Because we understand the need for flexibility, we now offer our Classic Guided Journeys on a private basis. **Classic Private Guided Journeys** allow guests the opportunity to travel on a date of their choosing.

Our evolved product offering further includes luxury, **Private Chauffeur Journeys**, tailored for individuals and families with a focus on providing exclusive experiences and accommodations.

Addressing **sustainability** is important to us, focusing on issues such as environmental endangerment, plastic pollution and species decline. Through our **Travel with a Purpose** activities, we seek to immerse ourselves in every place we go, not only through the experience it offers, but the communities that exist around these experiences.

We appreciate your continued support and look forward to connecting guests to nature, allowing them to relax and unwind, whilst travelling on our Guided Journeys.

TRAVEL WITH A PURPOSE

Cullinan Guided Journeys offers a unique approach to travel, focusing on purposeful exploration through our expertly curated guided tours. Each journey is designed to provide our travellers with meaningful experiences that go beyond sightseeing, fostering deeper connections with local cultures, environments, and communities. Whether you're seeking eco-conscious adventures or immersive cultural engagements, Cullinan Guided Journeys ensures that every trip has a lasting, positive impact on both the traveller and the destinations they visit. Discover the world with purpose and enrich your travels with meaningful encounters and sustainable practices.

Here are a few of our tours that include a Travel with a Purpose activity or excursion:

Garden Route Splendour Tour & South Africa Explorer Tour:

Monkeyland Primate Sanctuary, located along South Africa's scenic Garden Route, Monkeyland is a sanctuary dedicated to sustainable tourism and wildlife conservation. As the world's first free-roaming multi-species primate sanctuary, it provides a safe haven for rescued monkeys, promoting ethical wildlife experiences.

Birds of Eden sanctuary, is the world's largest free-flight aviary, championing sustainable tourism and avian conservation. This sanctuary provides a safe, natural environment for previously caged and displaced birds, allowing them to thrive in a vast forested habitat. It is home to both indigenous, African and international bird species

Garden Route Uncovered Tour & South Africa Odyssey Tour:

Early morning Meerkat Safari. The Buffelsdrift Foundation offers a unique meerkat interaction that highlights the importance of sustainable tourism and wildlife conservation. Set in the heart of the Klein Karoo, The Buffelsdrift Foundation is committed to protecting and preserving local wildlife (meercats, lion, cheetah and elephant), ensuring that the interactions are educational, respectful, and aligned with conservation efforts.

Kruger & the Kingdoms Tour, Kruger Park Explorer Tour, South Africa Explorer Tour, South Africa Odyssey Tour & South African Surprise Tour:

Project Watchdog in Kruger National Park is an innovative initiative that uses highly trained dogs to combat wildlife poaching. These skilled canines work alongside handlers to track poachers and detect illegal wildlife products, helping to protect endangered species like rhinos and elephants. Supported by donations and partnerships, the project ensures that these anti-poaching dogs receive the training and care they need to continue their crucial role in safeguarding South Africa's wildlife heritage.

South Africa Odyssey Tour & South African Surprise Tour:

A Gansbaai marine safari offers an up-close look at the rich biodiversity around Dyer Island, home to great white sharks, dolphins, seals, and endangered African penguins. The Dyer Island Conservation Trust leads conservation efforts through research and monitoring programmes that protect this fragile marine ecosystem. By joining a safari, visitors directly support these crucial initiatives, helping preserve South Africa's unique marine wildlife for future generations.

BARRYDALE FARM SCHOOL DEVELOPMENT FUND

As part of our efforts toward travelling with purpose, we include visits to rural farm schools in some of our guided tours travelling between Cape Town and the Garden Route. With every visit to a local farm school in Barrydale, a portion of the trip monies go towards our Barrydale Farm School Development Fund, that supports local education of underprivileged children in rural communities.

Weltevrede Primary School, Akkerboom Primary School and Vleiplaas Primary School in Barrydale are rural schools for the children of local farm workers, built in the 1960s by the farmers in the area. The schools usually have 40-60 children aged between six years and fourteen years attending classes. For a number of years, one of our tour guides had been making unscheduled stops at the schools, so that guests on tour could have an opportunity to interact with a local rural community. These visits often featured as a highlight of the whole tour.

Based on the overwhelming positive feedback from our guests, it was decided to include these visits as a scheduled stop on our Garden Route tours. We realised that our guests were interested in an authentic experience and opportunity to meet with rural communities away from the tourist routes. We continue to support these farm schools through our guided community visits and annual Christmas donations.
